

Rockin Veggie Kitchen :

TV Show in Paris and beyond

Get ready to Rock your socks off with a new type of TV series, where Top Chefs are paired with great international Singer-Songwriters. They'll prepare their favorite organic Plant-based dishes while appearing via video link. In addition, we'll have music from the Songwriters.

Artists will share their opinions and introduce their favourite NGO to the viewers to allow them to collect funds through donations!

Part of 3ec-TV's Light Entertainment slate, the series will pass along the message about organic/biodynamic cruelty-free food and beverages, sustainable fashion, and environmentalism in a fun-filled, music-loving half-hour of magical mayhem!!

*

Series will feature talented artists sharing their passion for a greener world, such as Indian multi-Grammy winning composer [Ricky Kej](#), American singers songwriters [Patricia Vonne](#) and [Kirstie Kraus](#), Danish multi-instrumentalist singer [Claes Cem 'Constantine Noble'](#), English rock singer [Graham Bonnet](#), American composer and lyricist [Debé Gunn](#), Polish born singer from Germany [Lydia Menn](#), French Queen of pop music, author, composer and singer, [Emma Goldberg](#), and star vegan chef [Elysabeth Alfano](#) from Los Angeles, among others.

Advantages of the series

- Everyone loves food, and to see a quick Vegan/Vegetarian meal being prepared whilst enjoying great music and fun-filled conversation is a recipe for success! In other words, it's a formula to excite the 'Eyes, Ears & Lips !!!
- Artists are offered extra international exposure to English/French speaking communities around the world!
- As the Artists and other Invited Guests won't have to travel, this will help to reduce their carbon footprint, and be much more environmentally friendly!
- As a strong advocates of equality in the music industry, we will promote Female Singer Songwriters!
- NGOs would get a massive boost by having Guest Artists promoting them on the Shows!
- Green Brands will have the possibility to showcase their products, as each show will be open to product placements, as well as Sponsorship opportunities.
- The series intends to launch on [3ec-TV](#)!

In view of the crisis facing humanity with climate change, a conscious decision has been made to emphasize and promote the message about biodiversity in every Show and include organic/biodynamic food and beverages that conform to our belief in helping to make our world a healthier place to live in.
